

Arvest Equipment Finance can help structure a municipal lease agreement tailored to meet your needs while letting you stay within budget limits and legal requirements.

- 100% financing is available
- Annual, semi-annual, quarterly or monthly payment schedules
- Lease financing results in a pay as you use allocation of municipal cash
- Avoid the lengthy and costly process of issuing bonds for equipment that is needed
- Leases spread cost of equipment over useful or economic life of equipment
- No security deposit required

Municipal Leasing is a smart alternative for governmental entities to acquire the equipment they need for essential use, while staying within budgetary requirements. Whether you need police cars, dozers, fire trucks or IT hardware/software, you should consider a municipal lease. In certain situations, we can even finance used equipment.

For additional information you may contact your local Arvest Bank, call (866) 745-1487 or visit us at arvestleasing.com.
